

Laboratory Safety Acknowledgment Form for Research Groups

Research Laboratory Safety Acknowledgment Form

This is to certify that I have read the “Regulations on the safety management of research laboratories at Wenzhou-Kean University”, “Laboratory research guideline” and other issued laboratory regulations. I will comply with the safety protocols, handbook, campus policy and any applicable provincial and national laws and regulations. I understand that the principle of scientific research laboratory safety is that whoever uses it is responsible.

By signing below I hereby agree:

(1) I ensure that all students, co-investigator and research personnel learn and comply with the laboratory safety regulations.

(2) It is my responsibility to assure all materials and equipment used with care, and keep work area clean and tidy.

(3) I take full responsibility for supervising students in the project and for the safety of students throughout the research process.

(4) I ensure that students will be fully trained for experimental operation and the use of lab equipment.

(5) I ensure that the risk assessment and relevant emergency response plan have been done for the project and the students have been accepted relevant training.

(6) It is my responsibility to conduct regular self-inspections to eliminate hazards and the unsafe factors in the laboratories. I am aware that my research group may be punished if there are more than three violations.

(7) I must report all emergencies, accidents, and injuries to the lab center and take effective actions immediately.
